1. For the purposes of effective management, it is necessary to distribute the Unity's educational software license by CCC.
2. CCC only accepts the applications from the education units or teaching course with education as the primary purpose and not for personal use.
3. The application of Unity education license is according to the following priorities:

   3-1. The education units or courses have used the Unity software for learning, teaching, training, research and development

   3-2. The units have made the demand in the Unity survey of the school.

   3-3. Others
4. Due to a limited number of license, we accept the advanced applications and set out the number of computers by teachers or units.
5. Confirmation of application, the license wil announce the applicant via e-mail. The applicants should be responsible for the custody of the license and really installed according to the number of applications.
6. The license is only for education version which is accepted to install within campus.
7. The Unity software is offered and maintained by Unity Technologies ApS ("Unity") at no cost. The authorized usage is defined in Unity's "Terms of Service".
8. CCC only manages and distributes the Unity license. Please refer to Unity's instructions for the software usage and usage rules.
